

EDA Exercise 7

P. McDonald

September 13, 2016

A data set comprised of information concerning the health of individuals suffering from chronic kidney disease can be found at

https://archive.ics.uci.edu/ml/datasets/Chronic_Kidney_Disease

Download the data and write an R Markdown document which documents your efforts to

1. Format the file as a csv
2. Write the data involving blood pressure, blood urea, creatinine and potassium to a data frame, all of whose features are numeric.
3. Assess the quality of the subsetted data.
