

EDA - Assignment 10

Aaron Niskin

November 10, 2016

Data was taken from the Florida Department of Law Enforcement, and from the American Community Survey (ACS), data set ID: B20004 organized by the Census Bureau. The data contains: median earnings over a twelve month period by sex and education for those 25 years or older.

Beurax of labor statistics

Note: I noticed that in the last file, the data starts on column 4 instead of column 3, so I deleted column 3 (and column 5 which was empty).
