EDA Exercise 6

P. McDonald

September 8, 2016

A data set comprised of information concerning the health of individuals suffering from chronic kidney disease can be found at

https://archive.ics.uci.edu/ml/datasets/Chronic_Kidney_Disease

Download the data and write an R Markdown document which documents your efforts to

1. Read the data
2. Assess the completeness of the data
3. Discretize the potasium feature using 5 bins containing equal numbers of observations
4. Discretize the potasium feature using 5 bins of equal length
5. Discretize the potasium feature using a topdown approach from the discretize package
6. Discretize the potasium feature using a bottomup approach from the discretize package
